County of San Diego, Department of Health Services Certification for  
the Design of On-Site Sewage Disposal Systems  
California, Licensed Attorney State Bar No. 195227  
California, General Engineering Contractor (A)

**EXPERIENCE**

September 1985 to Present	Principal Engineer/Vice President HETHERINGTON ENGINEERING, INC., Carlsbad, California
August 1983 to September 1985	Senior Engineer LEIGHTON & ASSOCIATES, San Diego, California

Since moving to San Diego in 1983, Mr. Cohen has acquired experience in a wide variety of areas related to geotechnical engineering. Mr. Cohen has been involved in planning, implementing and supervising projects, both large and small, including geotechnical investigation programs for development of residential and commercial structures and site improvements, development of hillside sites, and investigations of distressed residential and commercial structures. Mr. Cohen's work has also included performance and supervision of geotechnical observation and testing services during grading and site development as well as during implementation of repairs to distressed structures, including projects utilizing drilled piers and driven piles, tiebacks, compaction grouting, mechanically stabilized earth wall systems, geogrid soil reinforcement, dewatering systems, shoring as well as conventional grading and backfilling operations. Mr. Cohen has also performed studies related to groundwater, landslides, liquefaction, design and development of on-site sewage disposal systems and has been involved in site assessment investigations of environmentally contaminated sites. Mr. Cohen, as a Principal Engineer and Vice-President of Hetherington Engineering, Inc. provides geotechnical engineering services to homeowners and homeowners associations, developers, contractors, attorneys and insurance companies.
